

Greetings,

I would like to thank everyone who participated in the Garage Sale Weekend recently held in Norwood. Over Sixty sales were in operation on Saturday!! I would like a committee to discuss any changes for next year. If interested call or stop by village offices. Norwood's next big event is the Autumn Festival being held September 16, 2017 in the village park. Arts and craft vendors are welcome and need to contact the village offices for more details.

The Code Enforcement Office has been dealing with numerous complaints of garbage and trash on village properties. Several building permits have been issued and many people are renovating their homes throughout the village. The DPW has been busy blacktopping and doing other repairs to the streets. The fire Dept is very active in community events and a fall Demolition Derby is in the works. The departments membership is down and new blood is needed! If interested in joining contact a member or see me. The Norwood Lake Association operates the Recycling Center every Saturday morning from 8 to 11 stop down and take advantage of this service.

The Village Board meets the third Tuesday of each month at 6pm. Enjoy the rest of the summer.

Tim Levison, Mayor
